

The Story of How the Constellation “HOOT THE OWL” Began

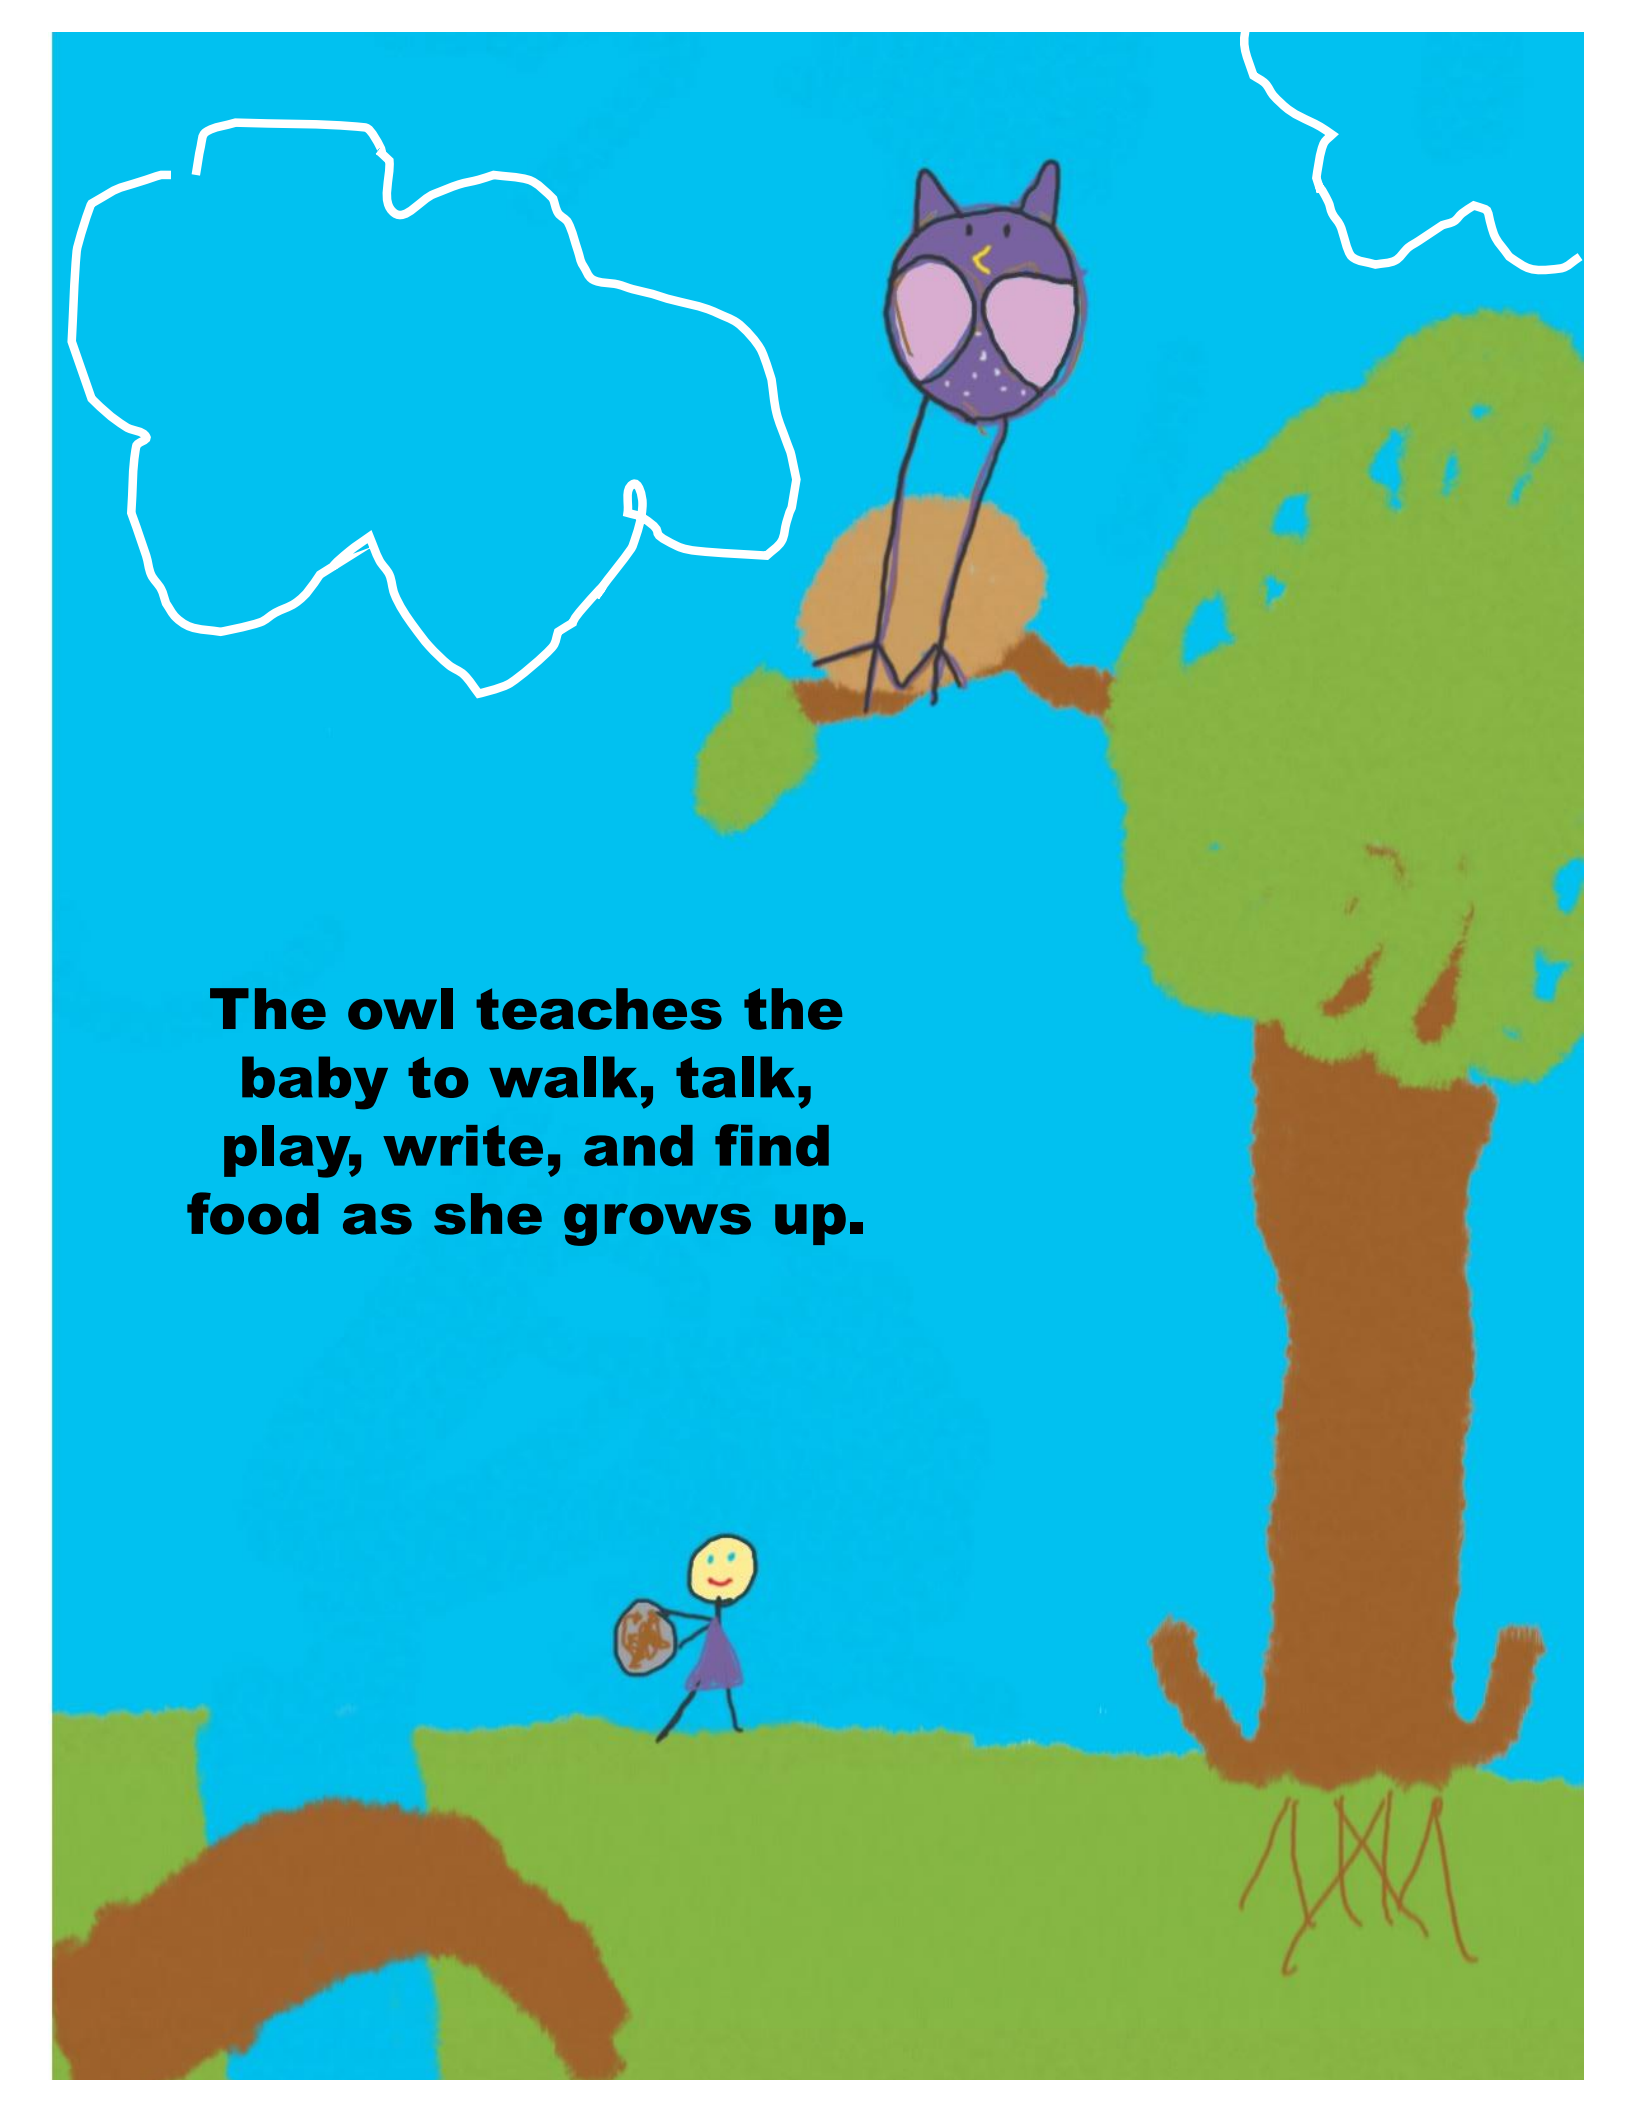

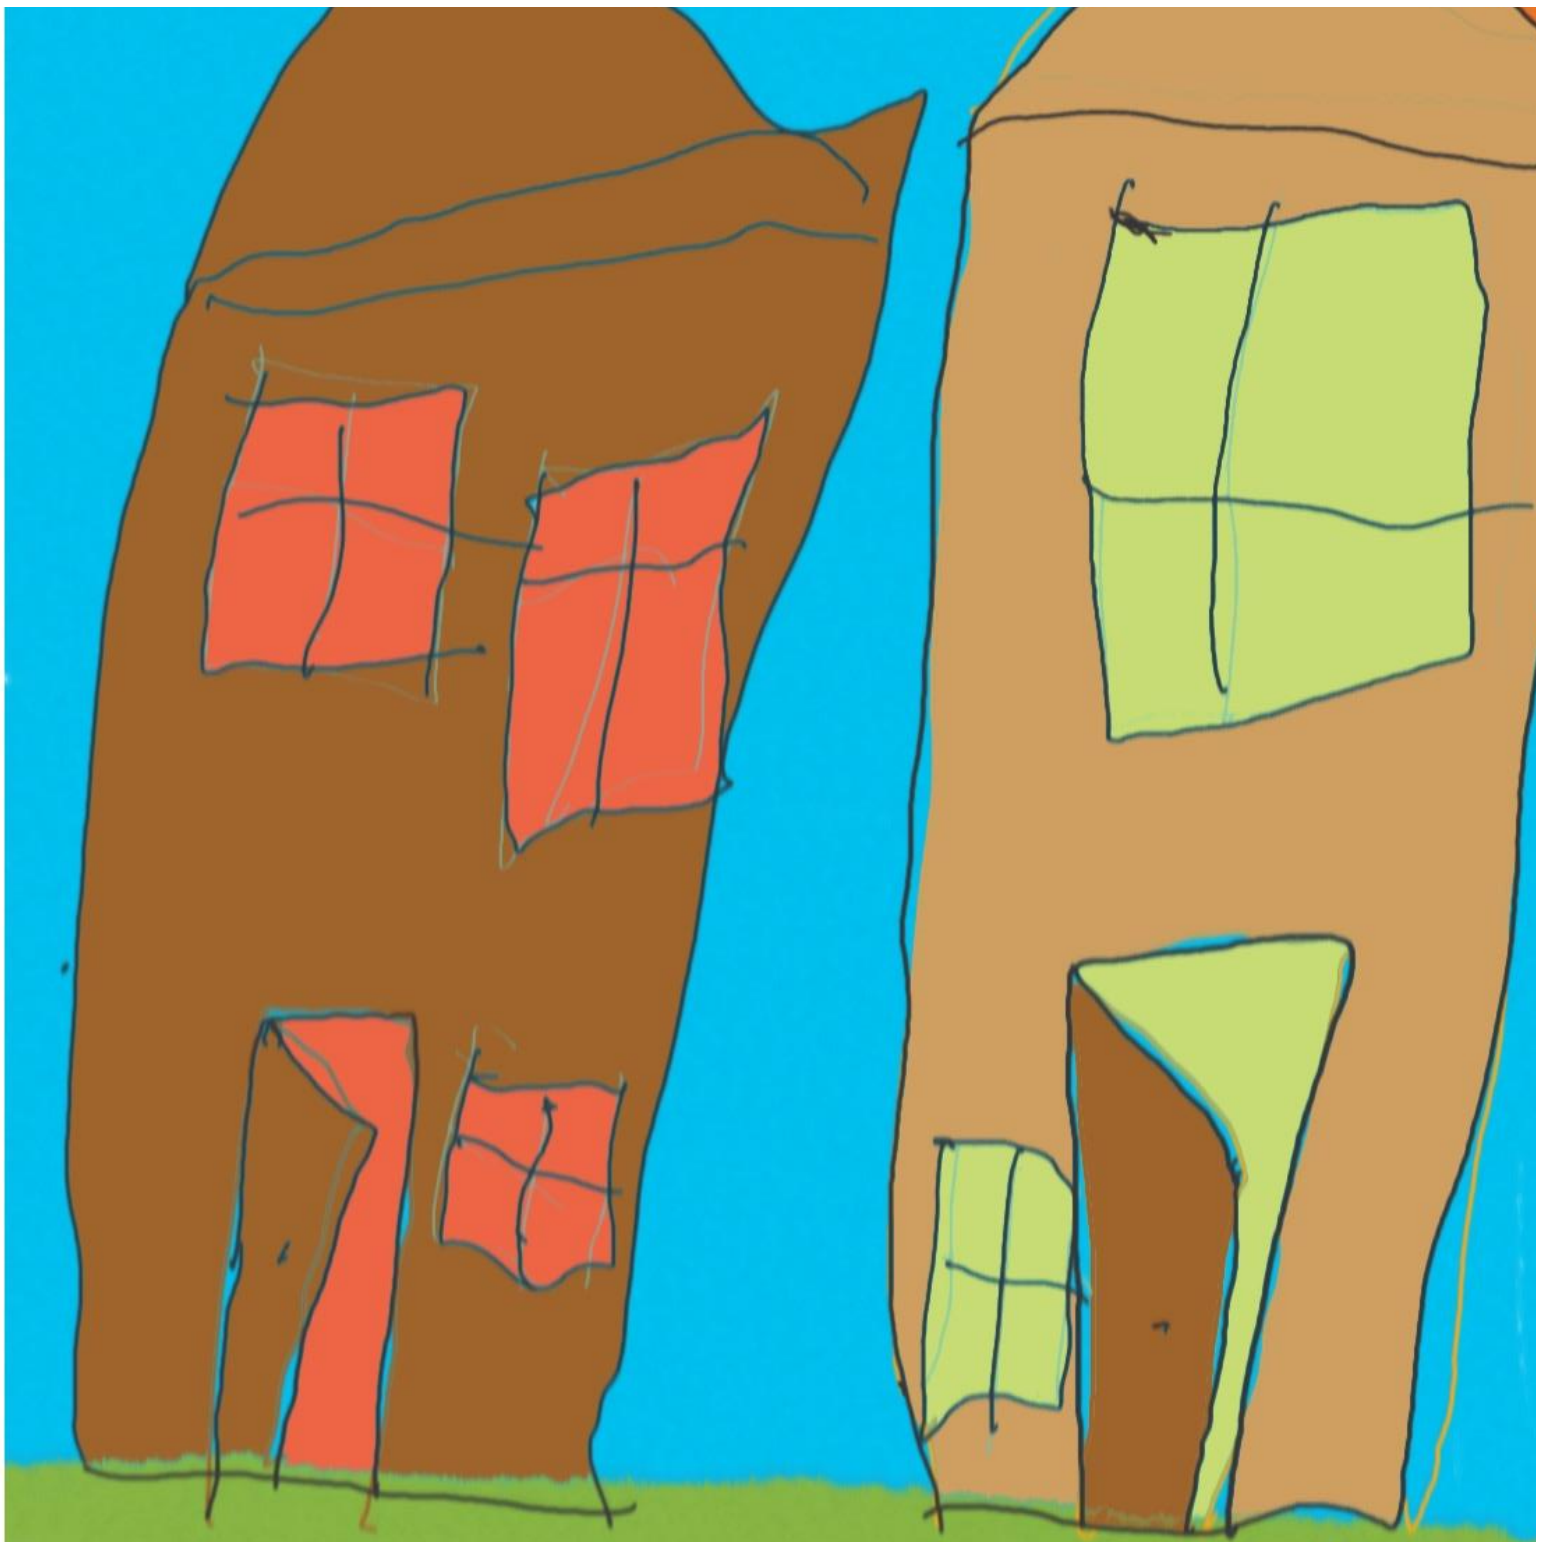

The Todd Family is traveling across the United States in a horse drawn wagon. They stop because they see a fire off the road.

**It was too late,
they crashed into
the fire. The owl
comes out of the
sky and picks up
the baby from the
wagon. The owl
takes the baby to a
safe place.**

**The owl teaches the
baby to walk, talk,
play, write, and find
food as she grows up.**

**The baby grew up
to be a young girl.
The owl thinks she
needs to be with
people and takes
her to a village.**

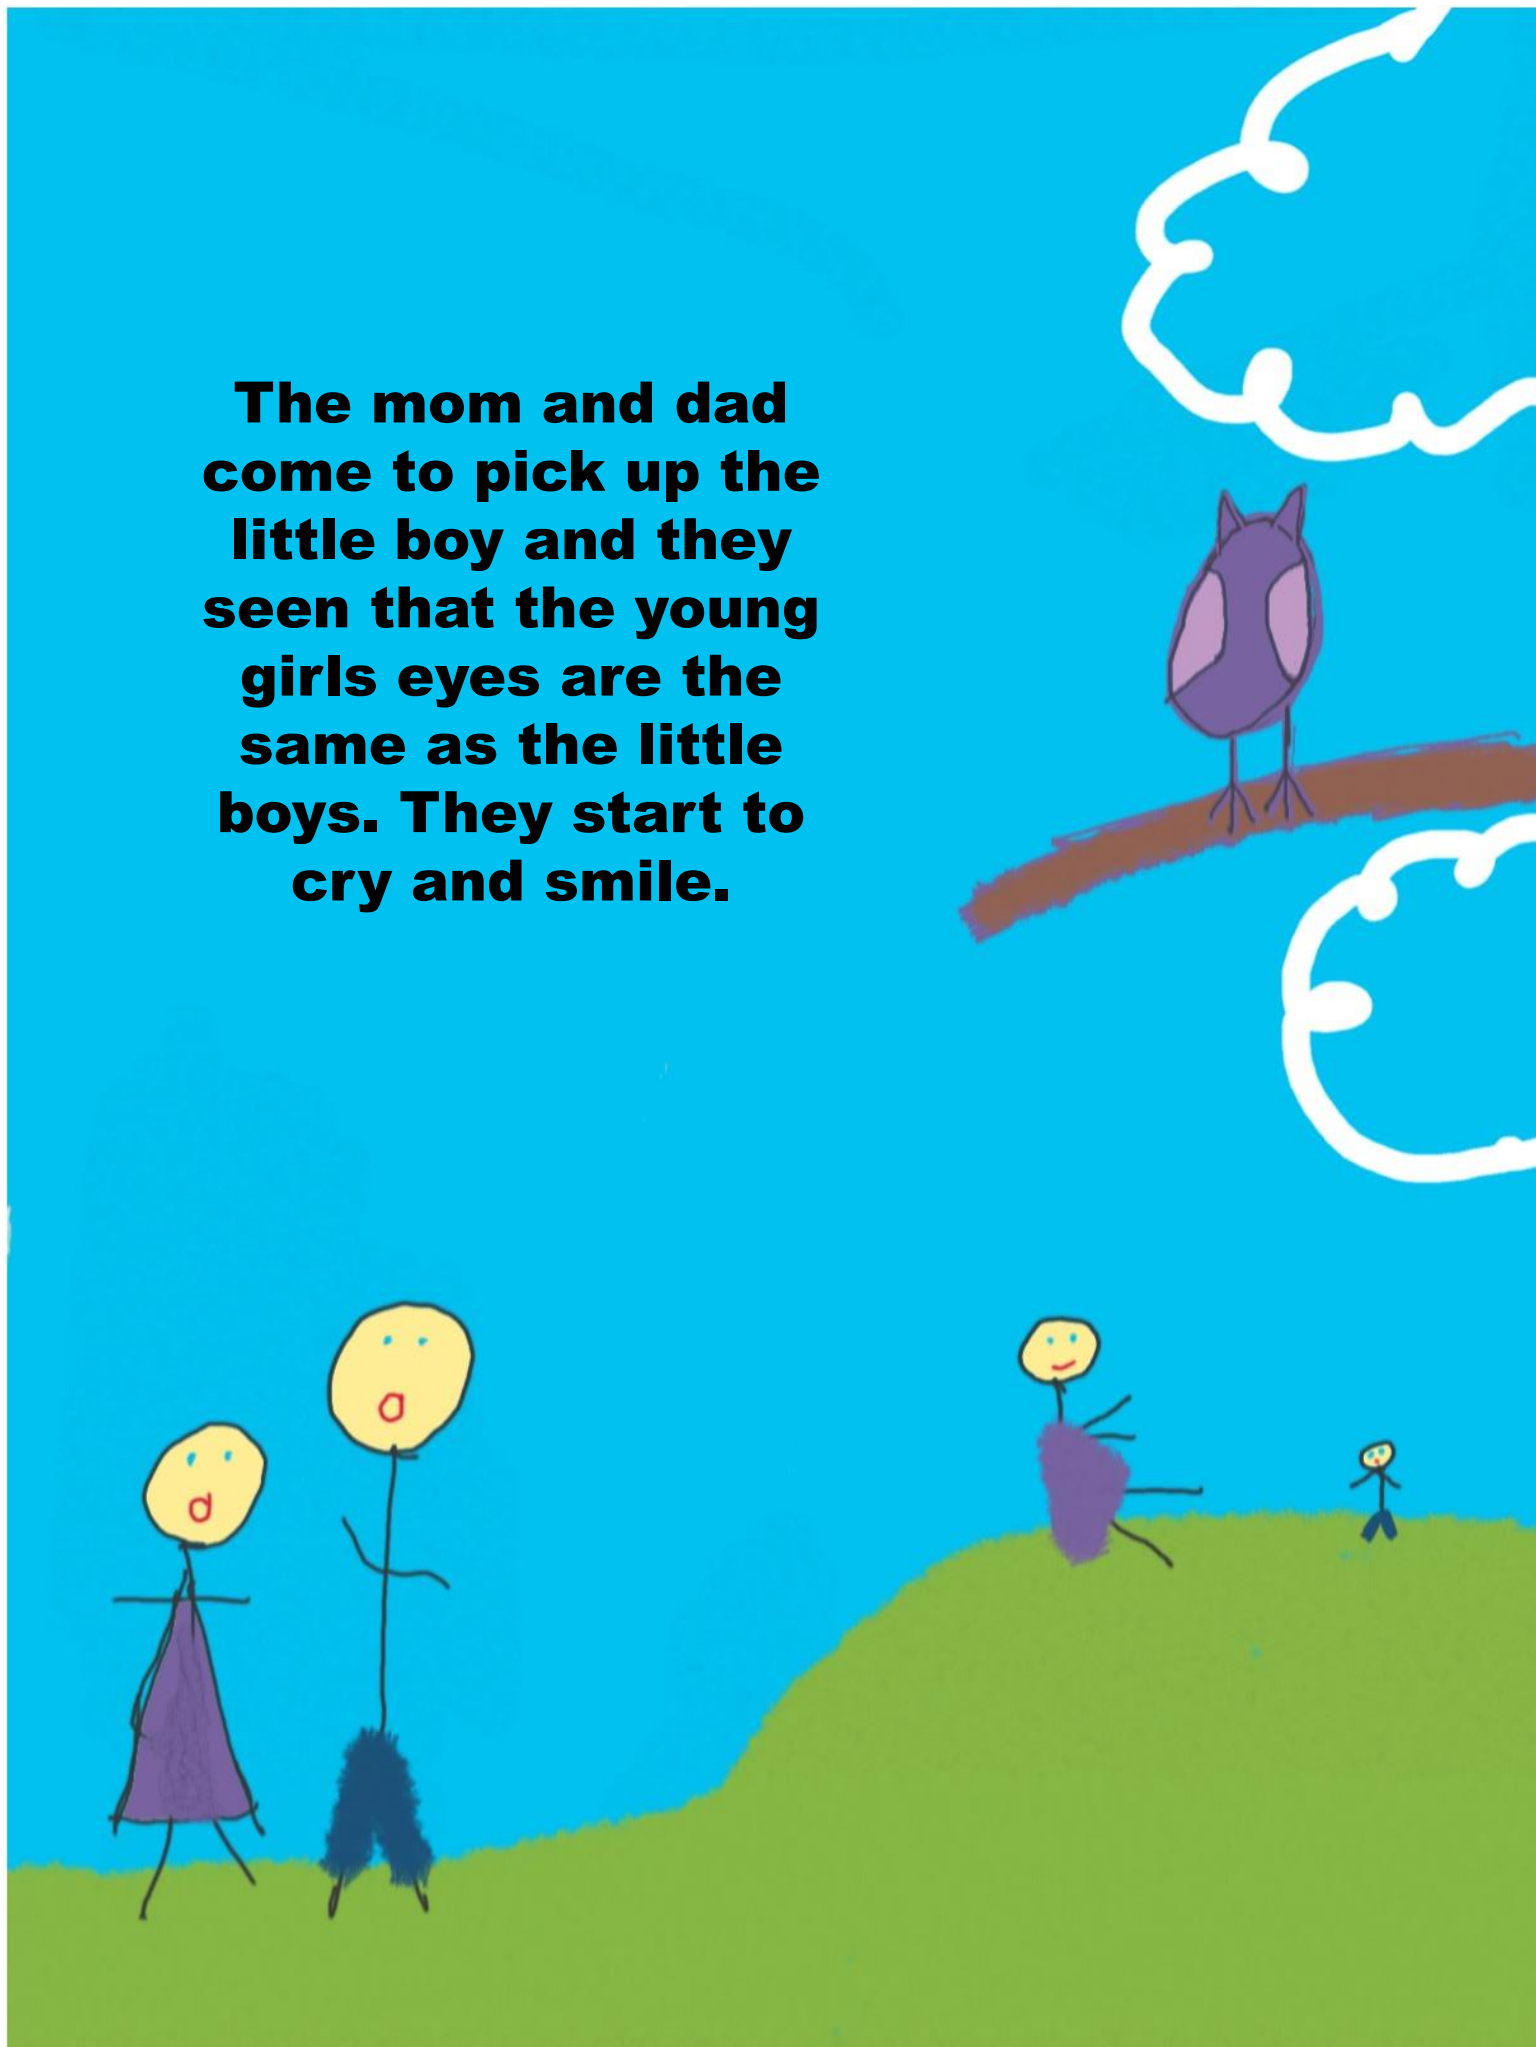

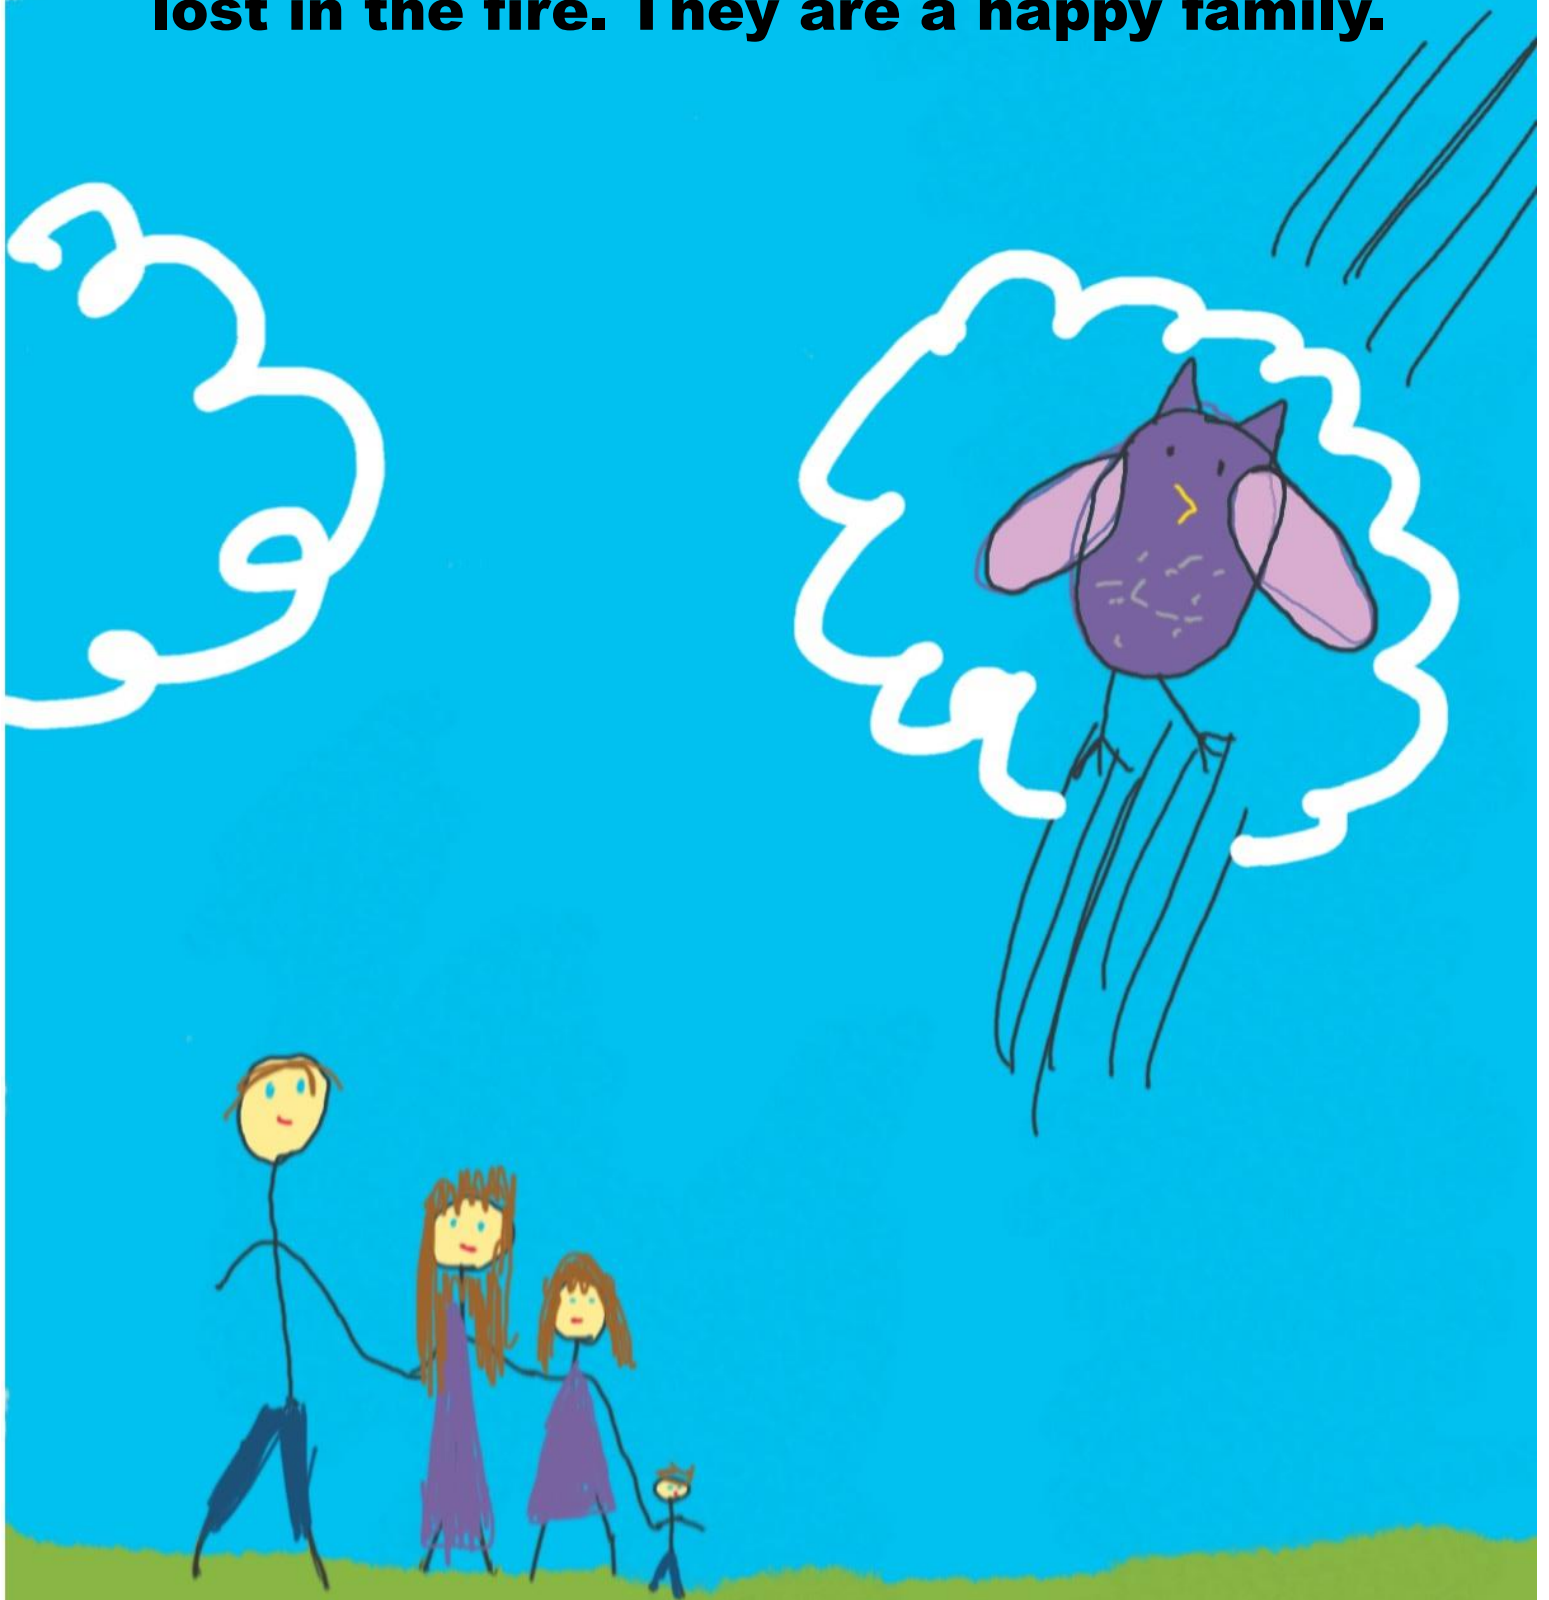

**When they get to the village
the young girl stops to play
with a little boy. The owl sees
the boys eyes and think they
are the same as the young
girls eyes.**

**The mom and dad
come to pick up the
little boy and they
seen that the young
girls eyes are the
same as the little
boys. They start to
cry and smile.**

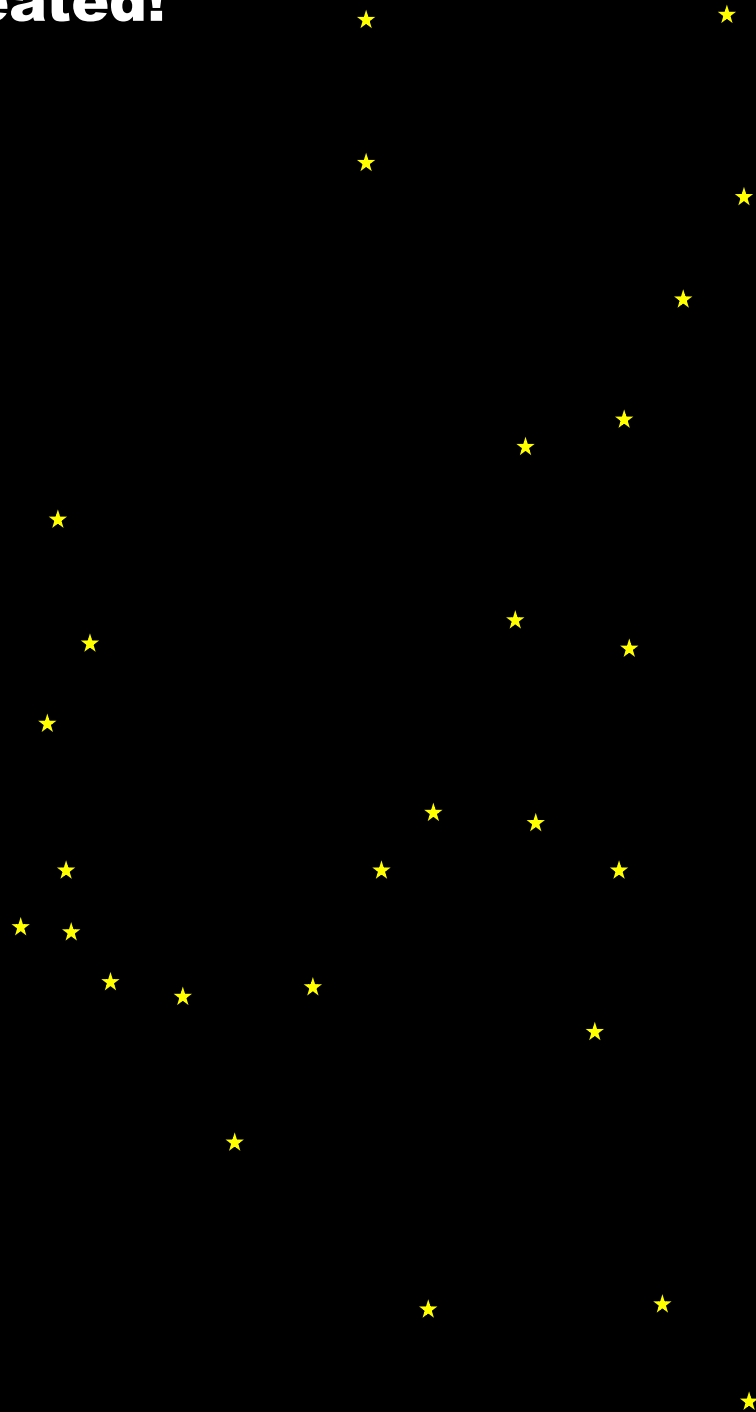

The young girl is the baby they thought they lost in the fire. They are a happy family.

The family to tell the owl thank you. They tell the owl she will be remembered in the stars. Hoot the owl flies so high out of sight and into the night sky.

**This is how the
constellation
“Hoot The Owl”
was created!**
